2. I feel that the Warden is liable, because he makes the decisions in Dauphin County Prison, which lead up to my near death experience. After the doctor who handled my case found out my diagnosis which is a disease called myasthenia gravis. I went into a stage of the disease which is called myasthenia crisis. I was in intensive care unit for at least 5 days. I don't remember anything for 3 of the days because of heart failure; breathing stopped. While I was unconscious of everything around me; on a ventilator to help me breath, I've gotten a
 3. RELIEF

treatment constituted cruel and unusual punishment, and violated my Eighth Amendment Right under the United States Constitution. Medical also forged my name to the Welfare office for medical benefits without consent from me or us talking about any type of care for me. Instead of Prime CARE paying for my care while I'm in Dauphin County Prison Care, they (Prime CARE) committed perjury.

procedure done to me which is called plasmapheresis which cleans the bad anti-bodies out of my to help me move again. I was given 2 sessions out of 5 which was not good because I was cleared to go back to the prison still in bad shape. After being back in the jail for a month I was rushed to Penn State Hershey, because of the disease had gotten bad again. I had no follow ups from Harrisburg Hospital. After being in Penn State Hershey for 20 days with getting different treatments nothing was working, but after the doctors gave me 6 plasmapheresis treatments there was a turn around. After me speaking to the doctor at Hershey, she said that Harrisburg was suppose to give me all 5 plasmapheresis treatments. It's evident that Harrisburg hospital was totally negligent with my follow up CARE, my life was totally being disregarded whether for financial reason or security reason facts don't fabricate. My body was totally dispeated unable to function, how do I begin to explain the shock of a man my age being totally incapable of moving. However shocking that was, it can't compare with the stresses of knowing my medical CARE is inadequate. mentally ravishing me in a way I can't begin to explain. As I write these facts down about my case, its a reminder of how powerless I am physically mentally and emotionally. I ask for empathy from medical staff who seems to be morbid and uncaring, unethical would be to light of a word I am not a disrespectful man, and I do appreciate Hershey medical center for saving my life literally. I just need to feel like my life has meaning to other people involved in my treatment, and most important be sure I have adequate medical CARE. Going through these before I was diagnosed with Myasthenia Gravis I had to force my dad off of work

visit me to see how the jail was neglecting me as I fell at my visit, had no control of neck muscles, hand functions was gone, vision I couldnt see, I couldnt speak, in other words the superiors over seeing the jail & the medical department neglected me in a way that you shouldnt treat any living being. Sgt Switzer who is part of the E.M.T told the shift commander that I had to leave because there was something really wrong with me. dad had to raise hell and threaten to go to the news, because he didn't really recognize me as his son. At this stage my after care has been inconsistent, my medication is delivered in a untimely manner. My rest is constantly disrupted due to security staff insensitivity to my condition. Also I must be allowed access to medical attention expeditiously which is impossible so it seems, I've been neglected.
